TITLE	Crocodile Physics. [CD-ROM].
PUB DATE	1999-00-00
NOTE	0p.
AVAILABLE FROM	Crocodile Clips, 11 Randolph Place, Edinburgh, EH3 7TA, Scotland, UK. Web site: http://www.crocodile-clips.com.
PUB TYPE	Guides - Classroom - Learner (051) -- Computer Programs (101)
EDRS PRICE	Document Not Available from EDRS.
DESCRIPTORS	Acoustics; Computer Assisted Instruction; *Computer Simulation; Demonstrations (Science); Electricity; *Electronics; *Force; Foreign Countries; High Schools; Instructional Materials; *Motion; Optical Data Disks; *Optics; Physics; Science Activities; Science Education

ABSTRACT

This high school physics resource is a simulator for optics, electronics, force, motion, and sound. Students can study oscillations, look at sound waves, and use probes to graph a wide variety of quantities. Over 100 activities are pre-written, and students can easily create their own additional activities using the multimedia editor. (WRM)
